# Easy Livin'

## Fastway

Raising like the Mary from below the sea
She's got easy livin'
Dancin' in the evening till a quarter to three
She's got easy livin'She's never had a worry
She's never in a hurry
Slithers like a snake
With the greatest of ease, wellOoh, here she comes again
And you know, you know what that spells
You've got trouble with a capital 'T'
I wish you luck but she's gonna be full of historyJumping up and down like a flying trapeze
She's got easy livin'
Bowing to her king like a fairy queen
She's got easy livin'She's never in a hurry
She's never had a worry
Slithers like a snake
With the greatest of ease, wellOoh here she comes again
And you know, you know what that spells
You can go but you never can tell
I wish old Bill come and put me in jail tonightReachin' for the top just like the Tour Eiffel
She's got easy livin'
Don't know much about it but she'll need her trapeze
She's got easy livin'She's never had a worry
She's never in a hurry
Slithers like a snake
With the greatest of ease, wellOoh here she comes again
And you know, you know what that spells
You've got trouble with a capital 'T'
I wish you luck but she's gonna be full of history, of historyWell, you can go but you never can tell
I wish old Bill come and put me in jail tonight
