Time's Up

Rock Against Bush Vol. 2

I've played the song, now it drives me crazy
I've run a race, now I'm too damn lazy
This is love of ours is so sad it makes me laugh today
Seems a little different
Hard to say, but it looks like the end
Time's up
Promise this time I'm getting off
Better we slam the door shut
Didn't you know if nothing changes, nothing changes
Time's up
Promise this time I'm getting off
Better we turn the lights off
Love is a train
We wait for it even when it's gone
We've surfed the wave, now we've hit the short end
We've squeezed the fruit 'til there's no more juice left
We're both so good
Good at keeping up the lie
We can get it in perspective
Kiss my lips
Life is what we make it
Time's up
Promise this time I'm getting off
Better we slam the door shut
Didn't you know if nothing changes, nothing changes
Time's up
Promise this time I'm getting off
Better we turn the lights off

Love is a train
We wait for it even when it's gone
As I'm waving you goodbye I want you to smile
Save the picture in your frame followed right next to my name
I'm willing to die for love, willing to try, but not willing to lie for love
I know that this cake's already baked
Now it's burning, burning
We can get it in perspective
Kiss my lips
Life is what we make it

Time's up
Promise this time I'm getting off
Better we slam the door shut (oh, yeah)
Didn't you know if nothing changes, nothing changes
Time's up (even when it's gone)
Promise this time I'm getting off (even when it's gone)
Better we turn the lights off
Love is a train
We wait for it
Yeah, yeah, yeah
Even when it's gone
Even when it's gone
If nothing changes, nothing changes
Time's up (even when it's gone)
Promise this time I'm getting off (even when it's gone)
Better we turn the lights off
Love is a train
We wait for it even when it's gone
