Live Again

Stryper

Take me and I lay down my life
And break me, cut the cancer with a knife
Teach me, what is wrong from what is right
And show me, when to walk and when to fightI am weak, Im never strong
Ive been upside down for way too long
Im sick and tired of no real change
Can You help me rearrange
My life cause I really want to live again
I want to live againSo shake me, Im a man whos settled
Im a man whos settled in, settled in
Can You clean me? Im so dirty from withinI am weak, Im never strong
Ive been upside down for way too long
Im sick and tired of no real change
Can You help me rearrange
My life cause I really want to live again
