

When Did I Wake Up

Alpha Rev

Buried in my past again
Losing in my sleep
Tired of taking history on a chin
I've been bleeding from the pressure lately When did I wake up? Or am I still dreaming?
I won't fade out, I won't leave you behind
Everlasting love and my heart is screaming
Hold on to me, I won't leave you behind Trying but you cannot hide
So change this lock and key
Trade it for some peace of mind
You've been bleeding so much better lately When did I wake up? Or am I still dreaming?
I won't fade out, I won't leave you behind
Everlasting love, why my heart's still bleeding?
Hold on to me, I won't leave
And I wake now, and I wake now When did I wake up? Or am I still dreaming?
I won't fade out, I won't leave you behind And I wake now, and I wake now
