When Did I Wake Up

Alpha Rev

Buried in my past again
Losing in my sleep
Tired of taking history on a chin

I've been bleeding from the pressure latelyWhen did I wake up? Or am I still dreaming?

I won't fade out, I won't leave you behind

Everlasting love and my heart is screaming

Hold on to me, I won't leave you behindTrying but you cannot hide

So change this lock and key

Trade it for some peace of mind

You've been bleeding so much better latelyWhen did I wake up? Or am I still dreaming?

I won't fade out, I won't leave you behind

Everlasting love, why my heart's still bleeding?

Hold on to me, I won't leave

And I wake now, and I wake nowWhen did I wake up? Or am I still dreaming?

I won't fade out, I won't leave you behindAnd I wake now, and I wake now
