

# Diana

Paolo Nutini

Drowning in you. Askin' nothin', takin'  
Do you believe in passion and romance?  
Destined to be within us and around us? Diana, she loves me  
No innocence or compromise  
Diana, she loves me  
The only way she knows When the soul's in flight, you set your body free  
And all of your lighted lessons, in all it's fantasies  
And as a shiver reverts the tension  
From an materialized dementia The make belief, our liberty  
You offer some love, swifts and chains  
Never change you for all the dames  
I stand for you, you open up the me  
She said she wanted both of us to go  
And she won't give up for nothing Diana, she loves me  
No innocence or compromise  
Diana, she loves me  
The only way she knows Diana, she loves me  
No innocence or compromise  
Diana, she loves me  
The only way she knows
