

# Pulse of Minority

## Dark Age

Break it down...andReload all your senses  
Cause they will never care for your tears  
Be aware of your chances  
Cause they will never take all your fears  
(If you are) lost, be part of the rising  
A new scenario will change aliesing  
The jaded domination  
Is worth a new creationThis is the Pulse of Minority  
Let this break all their authorityRevolute - Evolute your self
