

# Love Me, Loving You

[Sammy Kershaw](#)

Love me, loving you  
Is all I want from you  
Forever and a day  
Is not long enough, I say  
To show you how much  
You mean to me  
I love you, loving me  
Hold me, holding you  
And we'll always hold on to  
The feelings that we share  
We won't let go, I swear  
'Cause I'll show you how much  
You mean to me  
I love you, loving me  
Your pretty smile, it drives me wild  
Something no one else can do  
So take my hand and my wedding band  
And tell me that you do  
Now kiss me, kissing you  
We're one now, we're not two  
Together 'til the end  
We'll always be best friends  
And I'll show you how much  
You mean to me  
I love you, loving me  
Yes, I'll show you how much  
You mean to me  
I love you, loving me
