Still Life

RaphaÃ«l de Balanda

The still life
Is all I ever do
There by the window
Quietly killed for you
In this glass house
My insect life
Crawling the walls
Under electric lights
I'll go (into the night)
Into the night
He and I
Into the night
Is this still life
All I'm good for too?
There by the window
Quietly killed for you
And they drive by
Like insects do

They think they don't know me
They hired a car for you
To go (into the night)
Into the night
He and I
Into the night
And this still life
Is all I ever do
There by the window
Quietly killed for you
And this still life
Is all I'm good for too
There by the window
Quietly killed for you
And this still life
Is all I ever do
But it's still
Still life
