Bite the Bullet

Lower Class Brats

When your feelin' down
For you I'll be around
It's not hard to see
To believe in solidarity
'cause you're my friend
You are my family
Sometimes life is strange
And you get rearranged
And when you're in the brink
You gotta stop and think
You better start swimmin' man
Or your gonna sink
Money ain't heaven sent
When you can't pay your rent
There's one thing you know is true
There's one thing you gotta do
That's bite the bullet
And we'll see it through
