# To Be With You

## Joe Cuba

To Be WIth You
One hour each lonley day?
WIll there be no end
I need you so
I want you more than you knowWhen I'mm alone
I feel the touch of your lips
So softly on mine
Please say your mine
And come back here to meTo feel your arms
All closed around me inside
My heart wakens up
I still feel your touch
My love... AhWow! What a thrill
I'll never leave you I know
For I would love it so, to be with you
To be with you my love, My Love
