

Radiation Sickness

Nuclear Assault

Destruction
Has ruined your world
Flags of death
Have been unfold
Destruction
Has been unleashed
You've survived
And now you will dieCrawl through Hell
That once was your home
Search for help
Through despair that has grown
You've not long
To live on this earth
You will die
Radiation shall killShelter deep
Run and hide
There's no help
You will die
Shelter deep
Run and hide
There's no help
WarFading fast
Your flesh shall rot
Life of pain
Is all you've got
There's no one left
To bury the dead
People hide
Behind walls of leadShelter deep
Run and hide
There's no help
You will die
Shelter deep
Run and hide
There's no help
You will dieDie, slow, death
Die, slow, death
Die, slow, death

Die, slow, death
