Sick to Death

Atari Teenage Riot

I will fuck the systemI'm sick to death like I've never been sick before
I'm sick to death like I've never been sick before
Sick to death, sick to death, sick to death
I'm sick to death like I've never been sick beforeI wanna destroy
When you touch me I wanna cut you
And you suck for more
I could die for you when you put lipstick on my brainDriving through the night
Get caught up in an endless fight
I wanna be the mover to real anarchyBurn Berlin burn, burn Berlin burn
Burn Berlin burn, burn Berlin burn
Burn Berlin burn, burn Berlin burnI'm sick to death like I've never been sick before
I'm sick to death like I've never been sick before
Sick to death, sick to death, sick to death
I'm sick to death like I've never been sick beforePlease, let's just go home now
Okay, let's go
Don't do this, pleaseNation against nation
Nobody speaks up but we are laughing
Nationalism against nationalism
Burn Berlin burnAs we got bigger the others get weaker
Fuck a 1,000,000 trendy hardcore members
Never talk, always listen
I won't be afraid of the new timeBurn Berlin burn, burn Berlin burn
Burn Berlin burn, burn Berlin burn
Burn Berlin burn, burn Berlin burn
Burn Berlin burn, burn Berlin burnI'm sick to death like I've never been sick before
I'm sick to death, I'm sick to death
I'm sick to death like I've never been sick before
I'm sick to death like I've never been sick before
Sick to death, sick to death
Sick to death, sick to deathI'm sick to death like I've never been sick before
I'm sick to death, I'm sick to death
I'm sick to death, I'm sick to death
You can't stop me, you can't stop me
You can't stop me, you can't stop me
Sick to death, sick to death
I'm sick to death like I've never been sick before
