

What Breaks My Heart

Parachute

Verse one
It's not the way you didn't see me
I never come here anymore
You have a life you have to live it
And I can't blame you at all.
It's not the way I saw you kiss him
Before you got out of the car
But I can tell you really love him
That's what breaks my heart
Chorus
I wonder maybe if I walk these streets again
Maybe I can find it
Looking for a train I didn't miss maybe I could ride it out
To the sun in the morning I'll be fine in the morning
Sleep it off till the morning comes
Verse 2
It's strange to think we're in the same room
To breathe the same air that you are
I'm stuck here on an island
I can't even see the stars
I still see just how perfect we could be
Yeahh and that's what breaks my heart
Chorus
Bridge
(Instrumental)
(oh I know you couldn't believe)
(yeah I knew it wouldn't be me)
