

Ain't Got A Lot of Money

Slightly Stoopid

I ain't got a lot of money
All I got is time and a reason to rhyme
Don't need a lot of money
All I need is you I ain't got a lot of money
All I got is time and a reason to rhyme
Don't need a lot of money
All I need is you My baby girl was a virgin 'til I came inside
With the brown eye passionate and kisses right
When I got her arms wrapped around my side
Then you know it's a feeling that you talking about And if you don't need me
Then I don't need you on my mind
And if you don't want me
Then I don't want you on my dime I said I'm leaving, baby
Never look back, never look back
I said I'm leaving, honey
Never look back again I said I'm leaving, baby
Never look back, never look back
I said I'm leaving, honey
Never look back again I ain't got a lot of money
All I got is time and a reason to rhyme
Don't need a lot of money
All I need is you I ain't got a lot of money
All I got is time and a reason to rhyme
Don't need a lot of money
All I need is you And if you don't need me
Then I don't need you on my mind
And if you don't want me
Then I don't want you on my dime I said I'm leaving, baby
Never look back, never look back
I said I'm leaving, honey
Never look back again I said I'm leaving, baby
Never look back, never look back
I said I'm leaving, honey
Never look back again I ain't got a lot of money
All I got is time and a reason to rhyme
Don't need a lot of money
All I need is you I ain't got a lot of money
All I got is time and a reason to rhyme
Don't need a lot of money

All I need is you
