

Thankful Man

[Trace Adkins](#)

My daddy was blue collar
He worked for the man all of his life
He showed up when he didn't want to be there
A man of his word, believed in doing things right I remember when I was a kid
He'd say time and time again
It's a good life, it's a real good life
And I'm a thankful man I'm a thankful man for every turn
On every highway I've been down
Every mile I've lost, every crossroad stop
Every storm that turned me around Oh, it's better than I could have planned
It's made me who I am
It's a good life, it's a real good life
And I'm a thankful man My mama was a dreamer
But she was the rock that we all leaned on
She taught me 'bout the lessons in life
The difference between what's right and wrong And every word was a gift from her
That helped me understand
It's a good life, it's a real good life
And I'm a thankful man I'm a thankful man for every turn
On every highway I've been down
Every mile I've lost, every crossroad stop
Every storm that turned me around Oh, it's better than I could have planned
It's made me who I am
It's a good life, it's a real good life
And I'm a thankful man It's better than I could have planned
It's made me who I am
It's a good life, it's a real good life
And I'm a thankful man It's a good life, it's a real good life
And I'm a thankful man
