

One Bright Star

Paul Weller

I only want you, I only want you
You're the one bright star in my eyes
I only need you, I only need you
You're the one bright star, shine for me Without you I feel nothing
My one bright star shine for me I only love you, I only love you
You're the one bright star in my life
I only need you, I only need you
You're the one bright star, shine for me Without you I feel nothing
My one bright star shine for me
