

Lizard Life

ZZ Top

I got the attitude
And that's all I ever say
Don't have to tell nobody
How their tail ought to lay? Had a sudden revelation
The heights that I've sunken down to
And I don't mind, I can't find
My way out of witch's brew Livin' for the lizard life
Livin' for the lizard life I stumbled on the way around
My own reality
Gettin' right tightly wound
Past the pale of normality
I like big loungin' every day
On the Iguana side of town
Lizard love, it mighty deep
Talkin' way underground Livin' for the lizard life
Livin' for the lizard life
Livin' for the lizard life
Livin' for the lizard life I'd be a reptile all day
And it's so fine
Ain't no other way
Like a life minus mind
I prefer reclinin'
Beatin' that conga drum
And waitin' for a three point landin'
On my sticky tongue Livin' for the lizard life
Livin' for the lizard life
Livin' for the lizard life
I'm livin' with a lizard life
