

Touch

Ben Hammond

Baby touch, baby hold my hand
baby touch me, make me feel like I'm happy
baby touch, give it away
I can't recall where this left off Baby hold, hold me down
baby hold me, make me sing
baby hold, give it away
I can't recall where this left off If i touch your lips with these fingertips, maybe
somehow i'll get you to stay
if I brush your face, maybe take his place, but then those
Drums got in the way, when I was trying to say...baby tell, tell me off
baby tell me, tell me just about anything
baby tell, give it away
I can't recall where this left off If I touch your lips with these fingertips maybe
somehow i'll get you to stay
if I brush your face, maybe take his place, but then those
Drums got in the way, when I was trying to say...all that I need
is your hands on my face
all that i need...baby touch, baby touch me
all that i need is your hands,
all that i need is your hands,
all that i need is you.
