New Frontier

Lou Blackburn

[Incomprehensible] children mind the gap
Eh oh ow!
Miracle people in marvelous hair
And a knack to do anything better than anyone
I got a home with electrical air
And I live in a world smaller than anyone
But I got a line on a new frontier
I got a line on a new America
All of the people are vanishing here
I could be huge if I could just get home
From the outside of everything
To the inside of you
From the outside of everything
To the inside of you
Purest aluminum people are walking
The streets of London, so hysterical
Nobody here gets a word that I say
And the problems I'm told are more than medical
I got a friend from the new frontier
And Galen, she says, "This is not America"
You need a girl with electrical hair
And the word that you wanted was aluminum
From the outside of everything
To the inside of you
From the outside of everything
To the inside
I was in bed with the girl
At the end of the world
She said, "I'm goin' home
And you should come home too
I'm at the end of a new frontier
Here at the edge of the flat earth ending
I'm getting off to get lost in the air
At the end of the world where the light is bending
From the outside of everything
To the inside of you
From the outside of everything
To the inside of you
From the outside of everything

To the inside of you
From the outside of everything
To the inside
To the inside of you
To the inside of you
To the inside of you
To the inside of you
