

Inside

Warmer

Inside

It died

Inside - there's someone inside

Inside - there's someone inside

Inside - I cannot hide

Inside - from the one inside of me

It lies - says things I despise

It lies - it wants me to die

It lies - I cannot hide

From it's lies - from the things I do at night

It cries these lies

It keeps me up when I go to sleep

This need to feed on the weak the meek and the naive

I think I'd be a much better person

If I could just get a single wink

Why do you keep me up at night

God damn I just want to go to sleep

I'd come back a saint

If I knew it'd make a dent

This guilt machine it winds me up and haunts my dreams

It fuels it breeds it feeds upon my self esteem

I gotta get drunk to get calm to go to bed

I gotta get high to forget to go to bed

It lies - says things I despise

It lies - it wants me to die

It lies - I cannot hide

From it's lies - from the things I do at night

It cries these lies

It keeps me up when I go to sleep

This need to feed on the weak the meek and the naive

I think I'd be a much better person

If I could just get a single wink

Why do you keep me up at night

God damn I just want to go to sleep

I'd come back a saint
If I knew it'd make a dent
