Always Forever

Airport Soundtrack

And I'm so sorry with my standard lines
And I'm assuming you've heard this story a thousand times
Where you play the hero sent to save me
And I know you try
But I declined, and you resigned
And oh pond, and I just said that I was fine
We do this dance and it don't make sense
But when two people love each other
You just take a chance and say
We belong together forever
We belong together forever
We belong together forever
Always!

So I'll climb
And I'll try
And I can't deny this
Cuz I don't wanna let this moment go
No I don't wanna let this feeling go
So far
And I try so hard cuz
I don't wanna let this moment go
No I don't wanna let this feeling go

So here I go with my clever lines
And as I reside I see you roll your eyes
And all my excuses are rendered useless
But how can I just prove this
I can try to insist
Or persist
Or I can try with a kiss
And probably end up connecting with your fist
Till somehow we find a way to co-exist
Cuz we belong together forever
We belong together forever
We belong together forever
Always!

So I'll climb

And I'll try
And I can't deny this
Cuz I don't wanna let this moment go
No I don't wanna let this feeling go
So far
And I try so hard cuz
I don't wanna let this moment go
No I don't wanna let this feeling go
