All By Myself (Live Speakeasy 77)

Johnny Thunders

I don't want to talk too much
I just want to get to you
I don't want to see you there
I just want to get you thereAll by myself
Not everybody elseI don't need no wedding hall
I just watch your rollerball
Forget your friends and what they do
I got to get inside of youI don't need society
To open up my life for me
I don't need no audience
To shoot you in my cunning sense
