

# Weapon of Choice

## Black Rebel Motorcycle Club

I gotta speak and you want to listen up  
But there is no time to feast your eyes  
You want it all but the world wont give it up  
Up to the edge, your star will rise What is your weapon of choice?  
What's your weapon of choice?  
There is no weapon to free us all What is your weapon of choice?  
Whats your weapon of choice?  
There is no weapon to free us all I wont waste it, I wont waste it  
I wont waste my love on a nation  
I wont waste it, I wont waste it  
I wont waste my love on a nation Everyones got their own split factions  
Every pawn will pay its price  
Ive been digging out in all directions  
Ill see you through to the afterlife What is your weapon of choice?  
What's your weapon of choice?  
There is no weapon to free us all What is your weapon of choice?  
Whats your weapon of choice?  
There is no weapon to free us all I wont waste it, I wont waste it  
I wont waste my love on a nation  
I wont waste it, I wont waste it  
I wont waste my love on a nation Its too hard to stand aside  
Its enough to stop your heart I wont waste it, I wont waste it  
I wont waste my love on a nation  
I wont waste it, I wont waste it  
I wont waste my love on a nation I wont waste it, I wont waste it  
I wont waste my love on a nation  
I wont waste it, I wont waste it  
I wont waste my love on a nation
