

# Sane (Demo Version)

## Meshuggah

Come and hear my twisted lies  
The way I bend and falsify  
A master of deception  
User of an untrue smile A rapist of the truth  
Adapting it to fit my cause  
I'm the human lie  
A sad composition of all things vile Come, read my tainted lies  
Lies  
Come, see my wretched  
Tainted mind Bury, cover up, repress  
I betray the people I possess  
What ever enemy, I'll disable with mendacity  
I make my way Extend my ground  
I clear my future-path  
When it comes to joys  
Manipulation is my game of choice How I shine, I  
The perfect freak  
Confide in me  
Me, believe in me My intentions soon you will see  
The sway of my scheme, imposed upon all  
Come follow me, my puppets to be  
I'll attach my strings, manipulation begins Sane me  
Sane me  
Sane me  
Sane me I'm the way, I'm the truth  
Gather with me, I'm your future guide Sane me  
Sane me Gather with me, join my ministry  
I'm the way, the future guide  
I'm the self-acclaimed God of wicked games  
Sinister, repugnant bringer of pain, pain
