Morning Rays

Shakhan

You're the morning rays that reach into the cave.
You're the world's lighthouse by which my ship was saved.
All the beams of light come from you.
You're the one that's more than two.
You're the one that's more than two.You spoke and from nothing the world it came together.
Spinning all around the movement of its weather.
You did make the sun and form the dew.
You called out but answer only the few.
You called out but answer only the few.You made the Gentile and you did make the Jew.
You formed all the flesh the bone and the sinew.
Both of us we came. Came from Eve.
Both of us in Yeshua must believe.
Both of us in Yeshua must believe.
