Lovers, Friends and Strangers

Ronnie Milsap

LOVERS FRIENDS AND STRANGERS
Writer Kent M. RobbinsLooking back into the world we knew
When love was such a sweet surprise
Was it beautiful how strangers came to lovers
Like magic right before our eyes
Strangers become friends and friends become lovers
But the same fire that warms the heart can burn
Then it's lovers friends strangers again
Ain't it funny how the circle turns
And looking back I'd do it all again
Although the story's sad but true
Even lovers can be strangers once again
Stranger still I keep on loving you
Strangers become friends...
Ain't it funny how the circle turns
