Warning

Brier

It is really something
I'm confused
Saw it at my window
In a dream of you
When you whisper
I can hear
What you are thinking
Thinking my dear
This is a warning calling
Lift me up
It is really something
I'm confused
Saw it at my window
In a dream of you
When you whisper
I'm confused
Saw a sound
And it came up
From the ground
Lift me up
This is a warning calling
It left me out
