

No Friend of Mine

Jah Cure

I don't want them around me
Cause they ain't no friend of mine
And I ain't gonna let them drown me
In a corrupted state of mind Oh so graceful the serpent's stride
Fancy colors decked outside
Silent killer is on the rise
Waiting for the moment just strike
The sky is so big every star could shine
But too much corruption is on their mind
Yeah wolf in a sheep clothes (can't say me never want) I don't want them around me
Cause they ain't no friend of mine
And I ain't gonna let them drown me
In a corrupted state of mind
They sign allegiance with the devil, oh no
They are the same in disguise
Birds of a feather always flock together
Cause evil minds think alike
So I say eh eh I don't want them around me
Cause they ain't no friend of mine
And I ain't gonna let them drown me
In a corrupted state of mind It's not a battle 'gainst my own people
But war against spiritual evil
Can't afford to let them win
Never let them control your mind
Got to be firm in this time, yeah
So I say eh eh
I don't want them around me
Cause they ain't no friend of mine
And I ain't gonna let them drown me
In a corrupted state of mind
