

Start Me Up

Kate Ryan

Now I don't need nobody's persuasion
To get this party off of the ground
So get the music jumpin,' we'll all get down
Start me upWe'll take it off like we're in our bedroom
We'll turn it on like never before
And we'll sweat this joint just to make a point
Start me upAnd we'll take no survivors
Hit the roof, can't get much higher now
It's your turn
Start me upI'll give you all my riches
Are you ready for booty and kisses now
Here we go
Start me upStart me up, start me up
And if it takes all night, we can do it right
Start me upStart me up, start me up
And if it takes all night, we can do it right
Start me upNow I'm a girl that's on a mission
And I won't quit till I'm satisfied
So get your bod' in gear, 'cause we got no fear
Start me up'Cause dreams won't last forever
As long as we just stay together
You can always
Start me up, yeahStart me up, oh, start me up
And if it takes all night, we can do it right
Start me upBaby, start me up, start me up
Baby, start me up
And if it takes all night, we can do it right
Start me up, start me upYeah, start me up, oh, start me up
And if it takes all night, we can do it right
Start me up
