

What I Like

Gotthard

What I like is to take the highest road that never ends
To hold the moment right here in my hands
Yeah, thats what I like to feel alive
What I like is to know your bodys lying next to mine
To see you smile without a reason why
Yeah, thats what I like, thats what I like
Its something that will never end
Soul to soul
Everything here is all under control
Eye to eye
Can you see it? Can you feel it what I like?
What I like is to take you on a journey 'round the sun
I wonder if youd like to come along
Yeah, well may be tonight, yeah, may be tonight
Its something that will never end
Soul to soul
Everything here is all under control
Eye to eye
Can you see it? Can you feel it what I like?
Its something that will never end
And when its right youll understand
Soul to soul
Every thing here is all under control
Eye to eye
Let me show you all I've told you, yeah
Soul to soul
Everything here is all under control
Eye to eye
Can you see it? Can you feel it what I like?
What I like?
What I like?
What I like?
