Hole In the Sky

Delmag

I would rather live like you do
You never fall to pieces
Anytime you choose to
Any one whos close
Enough can hear you moving
I can feel you breathing out loudI feel like I shouldn't be here
Like I didnt prove enough to sit and stare
I dont even care
If I end up leading
I can see you seeing
Me for what I amAnd there's a hole in the sky
And it's taking us alive
It's taken us while to even notice it was there
and I I'll never fall to pieces anytime you hear this
Remember what i saidI would rather live like you do
You never fall to pieces
Anytime you choose to
Any one whos close
Enough can hear you moving
I can feel you breathing out loudI feel like I shouldn't be here
Like I didnt prove enough to sit and stare
I dont even care
If I end up leading
I can see you seeing
Me for what I amAnd there's a hole in the sky
And it's taking us alive
It's taken us while to even notice it was there
and I I'll never fall to pieces anytime you hear this
Remember what i saidI got a map
A map to keep me moving
So my legs dont sink in
Sink in to the ground
I wanted what you said
Said would make us wander
Now your never coming aroundI feel like I shouldn't be here
Like I didnt prove enough to sit and stare
I dont even care
If I end up leading
I can see you seeing

Me for what I amAnd there's a hole in the sky
And it's taking us alive
It's taken us while to even notice it was there
and I, I never fall to pieces anytime you hear this
Remember what i saidIt's hard to see
I'm keeping this alive
And there's jealousy
Eating me inside
And it's hard to see
I'm keep this alive
And there's jealousy
It's eating me insideAnd there's a hole in the sky
And it's taking us alive
It's taken us while to even notice it was there
and I, I never fall to pieces anytime you hear this
Remember what i said
