Drop

Viktoria Modesta

Verse 1
Out of sync i swim the rhythm in my head
I am in so deep with everything i said
Breathing, filling, dark matter in my lungs
wild mind but numb to touchBridge
we lay on the floor n stare at the ceiling why is theres so much pain
Time has told me n story's unfold did i under estimate
drowning all reason void of all feelings reading the signals all wrong
i need love, you are my drug, you were never enoughChorus
I'm ready to erase in the middle of the night ill catch a ride n runaway
Unthreading this mistake, I'm hitting on the breaks, staring in the face
staring in the face of the dropVerse 2
your a frequency a vision never here
phantom fear has got you giving up on me
dark light tonight, gun fire in the sky
oh this war was started meBridge
we lay on the floor n stare at the ceiling wondering why theres so much pain
Time has told me n story's unfold did i under estimate
drowning all reason void of all feelings reading the signals all wrong
i need love, you are my drug, you were never enoughChorus
I'm ready to erase in the middle of the night we'll catch a ride n runaway
Unthreading this mistake, I'm hitting the breaks, staring in the face
staring in the face of the drop
