Illusion (Saux Remix)

Beat Connection

I should probably take a step back and think it through
Try to calculate the best thing for me to do
But love is logic in my place like this you know I won't miss,
Another chance to set it out with youOver and over your eyes
Tell me come closer, all night, all night,
Again and again, I see the looks that you saidAll night
All night
All night
All nightAll nightStrange the way I always seem to catch your eye
So I believe it's meant to be between you and I
I know it's hard to come together in a place like this
I want this, another chance to set it off with you
One step in your direction
And I can feel the tension
One step in your direction
And I'm already there
One step in your direction
And I can feel the tension
One step in your direction
And I'm already there
Over and over your eyes
Tell me come closer, all night, all night,
Againg and again, I see the looks that you said
All night
All night
All night
Over and over your eyes
Tell me come closer, all night, all night,
Againg and again, I see the looks that you said
All night, all night, all night
