Lover

Chris Mann

Lover, lover, stay
lover, lover, stay
It's raining it's pouring
it's heatin' and snowing
It's dangerous outside
This pillow these sheets this bed
..It's a perfect place to hide
There is nowhere to go
There's a shadow over there to whisper of a chance
of a secret that I know
Lover sleep like baby in my arms tonight
Lover keep every word that I say
Love still might be a mystery but it's ours tonight
So lover won't you stay, stay, stay
emozdashietxp
lover, lover, stay
lover, lover, stay
I've wanted to say that i'm a little afraid
I don't know what I've been waiting for

just ...the worlds and the world still turns
but it all happens out the door, closer to you
so Turn off the lights let me tell you all night what I wanna say to you
Lover sleep like baby in my arms tonight
Lover keep every word that I say
Love still might be a mystery but it's ours tonight
So lover won't you stay, stay, stay
lover, lover, stay
lover, lover, stay
Like a fortress wrapped around you
That's what I'll do shelterin you
Not for one night but forever
Stay with me, stay with me
Lover sleep like baby in my arms tonight
Lover keep every word that I say
Love still might be a mystery but it's ours tonight
So lover won't you stay, stay, stay
lover, lover, stay
lover, lover, stay
