The Upper Hand

Goldfinger

Since you've been fifteen you were confused,
at that age it's so hard to just be you
you've got your friends, your records,
the only thing that makes you feel whole
you're trying to figure it all out
sometimes you realize the fight is oh-so futile
someone else is telling you you're wrong
[chorus]you know you're right
but no one seems to listen,
they say you're just a child,
so you turn and fight,
for me that is the only way
to step to what they say is the upper hand,
don't let them take the upper hand
don't let them take the upper hand
You wanna go out and forget the day
go out and just make your life seem real

forget your mom and dad
forget about your job, your home, your school
you take so much shit,
your girl said it's over
you think about giving up
but don't you dare give up without a fight
you know you're right
but no one seems to listen,
they say you're just a child,
so you turn and fight,
for me that is the only way
to step to what they say is the upper hand,
don't let them take the upper hand
never let them take the upper hand
the upper hand
