## The Driver

## **Bastille**

Shout out from the bottom of my lungs
A plague on both your houses
This thing

It's a family affair

It's drawing out my weaknessBig boys don't cry
They don't ask whyThere was a time when a moment like this

Wouldn't ever cross my mind

The sun will rise with my name on your lips 'Cause everything will change tonightI want to be back on the ground

Where my feet touch my shadow
I want to dig my heels in the dirt
Feel it break between all of my toes
Anything to stop floating 'round

Bring me down

Back down below, oh, oh, oh, ohTake breath

And push the anger down

Try to remember calmnessBig boys don't cry
They don't ask whyThere was a time when a moment like this

Wouldn't ever cross my mind

The sun will rise with my name on your lips

'Cause everything will change tonightHey now

What's the gravity upon your face

So I'm the one who's bleeding

Real men

Always thinkin' with our fists

My turn to be the victimBig boys don't cry

They don't ask whyThere was a time when a moment like this

Wouldn't ever cross my mind

The sun will rise with my name on your lips

'Cause everything will change tonightThere was a time when a moment like this

Wouldn't ever cross my mind

The sun will rise with my name on your lips 'Cause everything will change tonight
