Gravity

D-side

Never had I imagined such a beautiful situation
Where everything I ever wanted is right here
She is the rock I lean on
So good it scares me
She is my condition, my solution, my way back every time
When the daylight wakes me in some place I don't want to be
She's my gravity
When I'm out of position and nothing is working for me
She's my gravity
She brings me home
She's my gravity
All ai once I'm in stitches
She makes me laugh so hard I'm crying
I've never felt so animated before
When I'm losing myself I feel her arms around me
My affirmation my direction my way back every time
When the daylight wakes me in some place I don't want to be
She's my gravity
When I'm out of position and nothing is working for me
She's my gravity

She brings me home
My calling my way out of all things I am about
My best side by design
She's always on my mind
She's my condition my solution my way back every time
When the daylight wakes me in some place I don't want to be
She's my gravity
When I'm out of position and nothing is working for me
She's my gravity
When the daylight wakes me in some place I don't want to be
She's my gravity
When I'm out of position and nothing is working for me
She's my gravity
She brings me home
She's my gravity
She brings me home
She's my gravity
