

The Touch

[Kim Wilde](#)

Funny what fate can bring you
And the things that it can do
Funny how life can change you
When you least expect it to I wasn't into anyone
I danced in a sea of faces
I wasn't into anything
But baby, you know
Together we're So right
The touch that I get from you's incredible
So right
The touch that I get when I look at you Maybe the touch you give me
Is the look I get from you
Maybe the spell it's weaving
Is the way you feel it too Maybe you'll stop and walk away
Don't look at me to follow
I wouldn't run for anyone
But baby, you know
Together we're So right
The touch that I get from you's incredible
So right
The touch that I get, that I get from you Whatever it is we've got
Well, maybe we could find out more about it
Baby, we'll create this feeling
Anytime, anytime I wasn't into anyone
I danced in a sea of faces
I wasn't into anything
But baby, you know
Together we're So right
The touch that I get from you's incredible
So right
The touch that I get, that I get from you So right, so right
Together we're so right
