Master of Darkness

Star One

[A. Master of Darkness]
[Apprentice:]
Will you teach me the skills of the old ways
Lying dormant in me
Help me evolve and enter a new phase
Where my spirit runs free
[Teacher:]
I cannot teach you, I feel too much violence
And it's clouding your view
Clear your mind, master the silence
Let it flow within you
[Dark lord:]
I can feel a storm of passion raging deep inside you
[Princess:]
Control your hate
[Dark lord:]
Now it's time to yield to your aggression just like I do
[Princess:]
Now choose your fate
[Dark lord:]
And be a master of darkness!
[Apprentice:]
Don't be afraid, I won't stray down the dark path
My conviction is strong
Those who've sinned will answer to my wrath
I will right what is wrong
[Teacher:]
That's not the way, the dark will absorb you
You should never attack
You will be lost like many before you
There will be no way back
[B. Laserfight]
[Apprentice:]
You cannot break me, I'm not afraid of you
Don't think you've already won
[Dark lord:]
I am your destiny, you know it to be true
Don't make me kill you, my son
[Apprentice:]

I don't believe your lies, I can't imagine this
How can you say that to me?
[Dark lord:]
You've got to realize it's useless to resist
Join me, we'll rule the galaxy
[Apprentice: Dan]
[Teacher: Damian]
[Dark lord: Russell]
[Princess: Floor]
