Little Did I Know

Anouk

I had an Angel that sat on my shoulder
It seems like everybody's got one
I had the Devil waiting on standby
For when I wanted to have some fun
Thought that I was living forever
I thought that my smile would get me in
Never felt the wind that was coming
Never thought the party would end, no, no, no, no
Little did I know
That you were all I needed
Little did I see
Until You opened up my eyes
Little did I know
That one prayer could reach You
Little did I know
That You even cared
I had my daddy wrapped 'round my finger
And I never made my momma cry
Nothin' but smiles on the outside
But all the while living a lie
If You ask me, am I going to Heaven?
I said You know I've been a good good girl
I'm gonna spend all my money on makeup
And a find a boy who will buy me the world, yeah
Little did I know
That you were all I needed
Little did I see
Until You opened up my eyes
Little did I know
That one prayer could reach You
Little did I know
That You even cared
Little did I know
That you, You loved me
Before I even met You
I didn't see beyond myself
But I couldn't fight forever
Because You are so easy to trust
And now we play together

My life has just begun
Little did I know
That You were all I needed
Little did I see
Until You opened up my eyes
Little did I know
That one prayer could reach You
Little did I know
That You even cared
Little did I know
That You were all I needed
Little did I see
Until You opened up my eyes
Little did I know
That one prayer could reach You
Little did I know
That You even cared
Little did I know
Little did I see
Little did I know
Little did I know
That You even cared
