Underdog

Rock Star Supernova

Help me step away from the line
The one that's been drawn in front of me
Backed into this corner of mine
Taking off the blindfold just to see what's going on
Was it just a way for you to get the best of me
So come on, come on
I'm getting up 'cause I've been down so long
I ain't a cheap trick bad dog you can drag along
No one seems to open their eyes
When the problems all hit the wall
It's easy just to let it slide
Light the bomb and say you never did it anyway
Was it just a way for you to get the best of me
So come on, come on
I'm getting up 'cause I've been down so long
I ain't a cheap trick bad dog you can drag along
So come on, come on
I'm getting up 'cause I've been down so long
I ain't a cheap trick bad dog you can drag along, yeah
Welcome to the revolution
We are the army of underdogs
Welcome to the revolution, revolution
Light the bomb and say you never did it anyway
Was it just a way for you to get the best of me
So come on, come on
I'm getting up 'cause I've been down so long
I ain't a cheap trick bad dog you can drag along, yeah
So come on, come on, so come on, come on
So come on, come on, come on, come on, yeah
