

Discipline

Razor

Take out your whip and give me the pressure I crave
put on your leather and beat me until I behave
woman, you know that I love to be punished by you
how take off your clothes because know it's my turn to be cruel Dominate, dominate
welts all over my chest
discipline, discipline
baby, your pain is the best Inflict me with bruises and watch as I scream with delight
humiliate me, I last for your violence tonight
kiss me, then hit me, then tease me, then boss me around
my body is aching with lust so we'd better get down Hurts good.
