This is our happiness  
Toast today  
And I can't thank you enough  
I'm walking on my feet now  
And you're to blame  
But I can't thank you enough

This is our happiness  
Toast today  
And I can't thank you enough  
I'm walking on my feet now  
And you're to blame  
But I can't thank,  
And I can't thank you enough

Show me the door, My  
hands are cold, I  
looked up to you  
Just like a child,  
In love

We're busy laughing  
We're busy laughing  
Stood beneath the ruler,  
Then you took it away  
Take it away

This is our happiness  
Toast today  
And I can't thank you enough  
I'm walking on my feet now  
And you're to blame  
But I can't thank,  
And I can't thank you enough

Show me your picture  
Yeah you're my teacher
