

# Chain Reaction

## Primitive Radio Gods

I got caught in an astroplain  
And all the physicists are wrong  
And the world is just a chain reaction  
I dare to look at the fuckers that shook at the sound  
Coming down getting pound  
Into the third dimension I'm just a goddamned chain reaction  
Oh no Oh yeah Alright I was born on the seventh of May on an overcast day  
Into a world that never saw me coming  
One day when I could left home  
To get in touch with a phone  
(It's a koan) So don't expect to get it I'm just a goddamned chain reaction  
Oh no Oh yeah Alright I walk soft and I carry a stick  
About the size of the tries  
That it takes to get a decent hooker  
My shit's clean like a washing machine  
I'm alive, it's a fact you can't attack  
And now I'm taking over I'm just a goddamned chain reaction  
Oh no Oh yeah Alright
