

Blackboard

Katerina

(If you really want)
(If you really want)
(If you really really ready ready for my blackboard)
(If you really want)
(If you really want)
(If you really really ready ready for my blackboard.)

Please open your heart
You can choose me
Your life is so boring
So you can follow me
Please open your heart
You can choose me
Your life is so boring
So you can follow me

If you really want
I write you on my blackboard
If you really want
I am trying with you (boy)
If you really really ready for my blackboard
If you really want I am testing you

If you really want
If you really want
If you really really ready ready for my blackboard
If you really want
If you really want
If you really really ready ready for my blackboard

(Blackboard)
(Blackboard)

If you really want
I write you on my blackboard
If you really want
I am trying with you (boy)
If you really really ready for my blackboard
If you really want I am testing you

Please open your heart
You can choose me
Your life is so boring
So you can follow me
Please open your heart
You can choose me
Your life is so boring
So you can follow me

(Blackboard)
(Blackboard)

If you really want
If you really want
If you really really ready ready for my blackboard.
If you really want
If you really want
If you really really ready ready for my blackboard
If you really want
If you really want
If you really really ready ready for my blackboard
If you really want
If you really want
If you really really ready ready for my blackboard
