Ghouls

Chasing Victory

Wait near the fire, take another breath
Let the beat get a little higher
Wait near the fire, take another breath
Just take another breathOh, you're so cool, it makes me sick
All your friends are bound in disbelief
The thought of being freeOh, you're so cool, it makes me sick
All your friends are bound in disbelief
The thought of being freeSing it, sing, it sounds like pulling teeth
Sing okay and dance to our beat
Just move your feet, just move your feetAnd it feels good to see me
So high and dry while I am pulling teeth
And it kills you to see me
Having so much fun while I am shaking kneesNow don't get me wrong
I have no intentions of persuading you
To go off the wall and move on your ownBut if your feet tap and your fingers snap
Don't fight the fight, just let it be, just let it beSing it, sing, it sounds like pulling teeth
Sing okay, and dance to our beat
Just move your feet, just move your feetAnd it feels good to see me
So high and dry while I am pulling teeth
And it kills you to see me
Having so much fun while I am shaking kneesLet down your hair
Tell me it sounds goodWait near the fire, we'll take another breath
Let the beat get a little higher
Wait, near the fire, we'll take another breath
Let the beat get a little higherSing it, sing, it sounds like pulling teeth
Sing okay and dance to our beat
Just move your feet, just move your feetSing it, sing, it sounds like pulling teeth
Sing okay and dance to our beat
Just move your feet, just move your feetAnd it feels good to see me
So high and dry while I am pulling teeth
And it kills you to see me
Having so much fun while I am shaking knees
