

# Her Diary's Black Pages (Demo Version)

## Rage

In her diary's black pages  
The stories end in dark sadness  
And what she never dared to say  
Is in her diary's black pagesShe's a magician, she's got second sight  
Sends her mind wandering into the night  
Into the future, stories untold  
Tragedies and accidents, she always knowsIn her diary's black pages  
The stories end in dark sadness  
And what she never dared to say  
Is in her diary's black pages, noBrother kills brother, family fights  
Fire burns babies while the mother sleeps tight  
Whatever she's dreaming, it's gonna be real  
She couldn't help it when she writes what she's seenShe's a magician, she's got second sight  
Sends her mind wandering into the night  
Into the future, stories untold  
Tragedies and accidents, she always knowsIn her diary's black pages  
The stories end in dark sadness  
And what she never dared to say  
Is in her diary's black pagesShe's a magician, she's got second sight  
Sends her mind wandering into the night  
Into the future, stories untold  
Tragedies and accidents, she always knows  
She always knows
