Life Still Goes On

Eva & The Heartmaker

They say
Time's a great healer
That makes it right
And you'll be fine

But I see
I see you're still hiding
So let me in
Let me know

And it is not your fault
It's not your fault
The earth is still moving
The road is still long
We've got oceans of time
Life still goes on
And it's not your fault

Look
Look in the mirror
Look into yourself
And hold on
I know you've tried and tried
You've tried so hard to forget
You've tried so hard to just let
To just to let gooo

And it is not your fault
Not your fault
Not your fault
No, it's not your fault
Not your fault
The earth is still moving
The road is still long
We've got oceans of time
Life still goes on
And it's not your fault, noo

And it's not your fault
Not your fault

Not your fault
It is not your fault
Not your fault
The earth is still moving
The road is still long
We've got oceans of time
Life still goes on

And I see that it hurts
See that it hurts
So please try
To say goodbye..
