

What If We Fly

Chely Wright

Reasons

We've got a million
To stop takin' chances
And start playin' it safe
Memories
Of old love can haunt you
I should be scared to death
But I can't walk away 'Cause what if we fly?
What if we fly?
And dive off the edge of the end
Of the world as we know it
What if we fly?
Have faith enough to think
Fate might just know
Where we're goin' What if the arms of the wind
Carry us to the place
We never could find
Yes, we might fall
But what if we fly? Answers
They don't come easy
I don't know what's wrong anymore
But I know when it's right
Only a dreamer
The truest believer
Can let the chains fall to the ground
And take to the sky
And what if we fly?
What if we fly?
And dive off the edge of the end o
Of the world as we know it
What if we fly?
Have faith enough to think
Fate might just know
Where we're goin' What if the arms of the wind
Carry us to the place?
We never could find
Yes, we might fall
But what if we fly? I know we might fall
But what if we fly, fly?
